PRACTICAL INFO

Staff

Based in Kathmandu for many years, Altai Nepal guarantees you an active travel experience, thanks to our guides and our logistical infrastructure. During your trip, you are accompanied by our Altai trekking guides, 100% mobilized to help you discover unusual places in the heart of nature. Let yourself be guided...

- This trip is led by an English-speaking Nepalese trekking guide
- A local team assists you during the trek. Here is its composition (variable depending on the size of the group and the logistics required):

- Porters: during the trek, our belongings are carried by porters. Porterage is a historical tradition in Nepal, necessitated by the very rugged topology of the place. Thus, it is not uncommon to come across locals carrying loads of more than 50 kg on the trails! Being very concerned about the working conditions of our teams, we ensure that our porters work in the best possible conditions (a fair salary, limited charges, insurance, and suitable equipment are made available to all). On our trips, we provide one porter for every two travellers. The load is limited to 30 kg per carrier on our trips to lodges.

- Assistant-guides: in addition to the guide, assistant-guides are present too. They are responsible for providing active assistance to travelers, and make sure all participants to walk at their own pace.

Food

The traditional Nepalese dish is 'dal bhat', rice and lentils, accompanied by some spicy vegetables. In Kathmandu, it is possible to eat a good variety of dishes, but in the mountains, the choice is relatively limited: the lodges (local tea houses) offer menus that are often similar and less varied (e.g. dal bhat, fried noodles, momos, fried rice, pasta with tomato sauce, fried potatoes, etc).

On our group trips: three meals and a snack per day will be served. On long trekking days, you will also have an energy supplement (cereal bars and/or dried fruits).

During lodge treks, we try to offer you the most varied meals possible, with the dishes or ingredients available in the lodges. Some examples: dal bhat (Nepali daily meal), stir-fried rice with vegetables, potatoes with cheese, fries, pasta with tomato sauce, and sometimes even pizza! Note that fresh meat is rare and sometimes not recommended for Western stomachs.

Here are examples of the meals served on our trips:

- Breakfast: toast, pancake or Tibetan bread with butter/jam/honey + eggs + tea or coffee.
- Lunch: a main dish.
- A small snack at the end of the day is offered (biscuits and tea).
- Dinner: a soup, a main course, and a dessert (eg fruit in syrup)

+ a cup of tea and/or coffee is offered with all meals.

In Kathmandu and Pokhara, we often exclude meals, so that everyone can enjoy the variety of restaurants in the cities according to their tastes.

In the mountains, you can fill your water bottles at the tap or at the water sources (on the advice of the guide), but it is essential to filter it or treat it with purifying tablets. The purchase of bottled mineral water may also be possible in lodges, in town, or in restaurants. However, we encourage all to minimize plastic consumption: there is no recycling on site.

Accommodation

In Kathmandu and in cities in general, you are accommodated in a 3* hotel. On a trek, depending on the programs, you sleep in a lodge or at a homestay. A "Nepalese lodge" is a Nepalese house - an improved homestay - offering meals and accommodation

to hikers. Of variable comfort, they are certainly not hotels but they allow trekking in appreciable conditions, even at altitude: bed, mattress, tables and chairs, toilets, etc. In addition, the use of lodges makes it possible to considerably reduce the number of porters and therefore to lighten the trekking infrastructure.

Transportation

Transport/transfer by bus, private minibus & plane.

Budget & exchange

The local currency is the Nepalese Rupee NPR.

Visit <http://www.xe.com> for the latest currency converter and exchange rates.

You can withdraw Nepalese Rupees from in-country ATMs in Kathmandu and credit cards are accepted except in shops and hotels. Please budget for meals in Kathmandu, drinks, tips and other personal expenses.

Tips

Tipping is very present in Nepal. It is an integral part of the 'tourism' culture of the country: independent of salary levels, your tip is seen as a sign of appreciation. The amount depends on your satisfaction with the services rendered and your generosity. Your guide will help you on this subject. Like money, if you have clothes to give, do not hesitate to seek advice from your guide who will make a fair distribution. We advise you not to give sweets and / or energy bars / chocolate to local children as there are virtually no dentists here in the mountains. The same rules apply to medicine, western medication is not necessarily adapted for the Nepalese and, moreover, following the correct dosage is extremely important. And of course, do not forget to bring medicines that you take regularly, if any.

- You may also be able to store some belongings securely at the hotel in Kathmandu.

To protect your bags, we will provide solid waterproof Altaï Bags.

- 30 days : 50 US\$

Mandatory vaccines

No mandatory vaccinations are required. Recommended vaccines include Typhoid, Hepatitis A, Hepatitis B, Rabies, Japanese Encephalitis, and Influenza.

Health information & recommendations

It is your responsibility to check that your personal health insurance covers everything in this trip. A consultation with your doctor is a prerequisite for any trip and we advise you to visit your dentist too as untreated cavities have an annoying habit of waking up with altitude.

Hygiene Recommendations

Water is not drinkable in Nepal. It is always possible to buy bottled water but in order to limit pollution and preserve natural areas, we strongly recommend that you drink purified water. For that, think to bring a water bottle of minimum 1.5 liters and purifying tablets (micropur, aqua tabs ...). Consume only treated water or water which has been boiled for 30 minutes and then filtered. Be sure to wash your hands frequently, and definitely before each meal (anti-bacterial hand gel is recommended) and take care to disinfect any skin wounds. Avoid drinking natural drinks like pressed fruit juice and do not consume ice cream or "lassi" (a milk-based beverage) bought in the street. Meat and fish / shellfish should be well cooked before consumption.

Weather

From the eternal snows of high peaks to the tropical lowlands, Nepal has a wide variety of climates.

- **In autumn** (October to mid-December) the days are very beautiful but can be fresh at altitude. At 3000 m altitude,

temperatures can drop to -10 ° C (14°F) at night.

- **In winter** (mid-december to mid-february): The nights are generally cold and the climate is dry. If night time temperatures drop easily below 0 ° C (31°F) to 3000 m, the days are often sunny. Treks below 4000 m are very pleasant. There are very few tourists at this time.

- **In spring** (March to end of May): in this season, Kathmandu is in full bloom and the rhododendrons are magnificent. The weather is pleasant, it is getting hotter with some night storms. Temperatures vary between 10 and 28 ° C (50 - 83°F), but can rise to over +30 ° C (+86°F). Between 2000 and 3000 m, temperatures rarely drop below 0 ° C (32°F). A few rare frosts or snowfalls are possible in March from +4000 m.

- **In summer**: it is the monsoon season. This interrupts the majority of trekking from June until the end of September. However, certain regions of the "Trans-Himalayan" zone, Mustang and Dolpo remain sheltered from the monsoons - these are the only circuits available in Nepal in the summer.

Electricity

In recent years, due to a lack of hydropower facilities, electricity and water outages are becoming more frequent in Nepal, especially in Kathmandu (mainly in winter and spring). The hotels have generator but the electricity is limited. It is the same for the consumption of water.

Local time

Coordinated Universal Time (UTC)/ Greenwich Mean Time (GMT) +5.45. Daylight Saving Time (DST) is not observed here.

Sustainable tourism

As adventure and wilderness travel experts who run trips to some of the most remote parts of the world, we take responsible tourism very seriously. We respect the 'Leave No Trace' outdoor ethical code and try to explore this beautiful location whilst causing minimal environmental damage.

Since the beginning, we have advocated for responsible tourism and the importance of equitable and sustainable principles. Harmonising these fundamentals ensures a fair distribution of economic benefits, improved working conditions for local teams and an increased awareness of the importance and practice of environmental protection. We hope that all of our clients will respect our philosophies and embrace these attitudes.

The Leave No Trace policy can be summarized in 7 simple steps which we hope you will follow during our trip...

1. Be prepared
2. Stick to trails and camp overnight right
3. Stash your trash and pick up waste
4. Leave it as you find it
5. Be careful with fire
6. Respect wildlife
7. Be considerate of other visitors

Over the years we have built up good relations with our local suppliers and we are keen to support local businesses as much as possible. We are a small company and we pay our local partners and suppliers directly insuring fair rates.

Our small group sizes not only provide a more intimate adventure but also cause less impact on the environment and local communities. We expect all who travel with us to support and uphold our Sustainable Tourism philosophies.
